SKILLS

CPP, Linux, Java, CSS, Python

Problem solving, Teamwork, Fast Learner, Communication, Initiative-taking, Adaptability, Leadership

PERSONAL PROJECTS

Industry Sponsored Project: Design and Development of DAPP on Blockchain By Zbyte
(02/2024 - 05/2024)
The Idea Submission dApp revolutionizes idea submission and tracking with a decentralized, transparent, and secure blockchain-powered solution. It provides a unique, secure, and transparent repository for individuals and organizations to manage and protect their intellectual property.

Meeting Summarizer (AI Project)
Developed an AI tool that transcribes offline meetings, identifies speakers, and generates concise summaries, including key decisions and action items, enhancing meeting documentation efficiency.

SHEild (Women Safety Project)

SHEild is an innovative safety device designed to empower women by enabling quick and reliable emergency communication. The device uses a button mechanism to trigger a 10-second timer. A second button press confirms the SOS, prompting the GSM module to alert pre-stored emergency contacts. If unconfirmed, the SOS is canceled. This efficient system enhances personal security and was successfully passed at the college level for the Smart India Hackathon.

Campus Nexus - Integrated Student Management System
The Integrated Student Management System simplifies educational administration. Built with Java, NetBeans, MySQL, and JDBC, it offers efficient solutions for managing students, improving efficiency and quality in academic institutions.

EDUCATIONPrimary and Secondary School
Sinhagad Spring Dale School Pune   06/2010 - 06/2020

Jr College
P Jog Jr College   06/2020 - 06/2022
